

Press release 08/08/2016

Evolution in Live Casino partnership with The Ritz Club

Evolution Gaming, leading provider of Live Casino solutions, has entered into partnership with The Ritz Club, one of the world's most exclusive casino and private members' clubs.

The agreement will see Evolution deploy a Live Casino service for The Ritz Club that will initially include an on-premise 'Dual Play Roulette' convergence solution, alongside an extended range of live tables hosted at Evolution's Riga studios. The Dual Play Roulette table is to be located in the Club's principal gaming salon.

In addition to the Dual Play Roulette table, the exclusive online service for members of The Ritz Club will include access to a wide range of VIP Roulette, VIP Blackjack, Baccarat Squeeze and Three Card Poker tables hosted in Riga. To reflect the ambience of the land-based venue, the online portal to all Live Casino tables at The Ritz Club will be distinctively branded using the new and extended functionality of Evolution's latest, highly configurable 'Live Lobby'.

In total, the new online service, expected to go live later this year, will effectively mirror The Ritz Club's 24/7 land-based gaming offering.

Fredrik Osterberg, Chief Strategy Officer at Evolution Gaming, commented: "We are honoured to be working with The Ritz Club, a name synonymous with exclusivity, luxury, and the very essence of fine gaming. Convergence is increasingly important in the land-based sector, and our Dual Play Roulette will afford The Ritz Club's membership access to a private online table that sits at the very heart of their favourite club, and much more besides."
