Evolution signs agreement with White Hat Gaming for Live Casino provision

Evolution Gaming, leading provider of Live Casino solutions, has announced that it has signed an agreement with gaming platform provider White Hat Gaming.

Under the agreement White Hat Gaming will extend its existing casino content offering with Evolution's award-winning Live Casino games portfolio for desktop, tablet and smartphone.

The move gives White Hat Gaming access to the full range of Evolution mainstream and VIP Live Casino games including Live Roulette, Baccarat and Blackjack, plus numerous poker variants including exclusive titles, and a new Progressive Jackpot. The Evolution games are scheduled to go live on the White Hat Gaming platform early in Q2.

White Hat Gaming is a market-leading proprietary platform provider that aggregates casino content from the best providers to deliver the best gaming experience to its customers' players. The company is licensed by the UK Gambling Commission and currently works with multiple top online casino brands like The Grand Ivy Casino, Hello Casino, and 21 Casino .

Marc Weinberg, White Hat Gaming's Chief Marketing Officer, said: "Adding Evolution Live Casino to our content roster is a strategic step as it significantly increases the number of tables and game variants in our Live offering – and across all devices."

Weinberg added: "The deal greatly expands choice for our customers and their players. At the same time, innovative Evolution developments such as Immersive Roulette and Baccarat Control Squeeze are stand-out games that will significantly help our operators acquire and retain players."

Sebastian Johannisson, Chief Commercial Officer at Evolution, commented: "White Hat Gaming has a growing number of operators using its platform as a 'one-contract', solution and we are delighted to serve those operators via this channel. Their players can look forward to access to all of our live tables, including exclusive titles such as Ultimate Texas Hold'em, and to other attractions too. I'm sure our upcoming Dream Catcher game, for example, will be a big hit. As a uniquely different online live lucky wheel it will appeal to operators' existing slots and bingo players and add further fun and stickiness to White Hat Gaming's wide-ranging content offering."

About White Hat Gaming

White Hat Gaming is a gaming software aggregator delivering market-leading casinos content combined with a fully centralised back-office via a state-of-the-art platform.
