## **SL Casino Tbilisi chooses bespoke Dual Play Roulette from Evolution**

**Evolution Gaming, leading provider of Live Casino solutions, has announced that it is to install a bespoke Dual Play Roulette table at the SL (Shangri La) Casino Tbilisi, located in one of the historic areas of the Georgian capital.**

The Evolution Dual Play table will be on the main floor of the SL Casino Tbilisi, alongside the casino's other table games, which include American Roulette, Blackjack, Punto Banco and several Poker variants.

This latest Evolution Dual Play Roulette deployment follows Dual Play launches at the Grand Casino Bucharest, Grosvenor's Victoria Casino in London, Genting International Casino at Resorts World in Birmingham, as well as The Ritz Club London and The Hippodrome Casino London.

The Dual Play concept brings together land-based and online play at the same land-based table. On-premise Shangri La customers can play at the table just as they would at any of the casino's conventional roulette tables. Players not present at the physical Dual Play table can join in the same game, at the same table, via their smartphones, tablets or desktop computers.

In addition, the live games feed from the Shangri La Dual Play table will be made available to all Evolution licensees, giving those operators the option to offer this uniquely different live gaming experience to their players.

Darren Keane, CEO at Storm International, who also operate Shangri La casinos in Minsk, Yerevan and Riga, commented: "What distinguishes Evolution Dual Play Roulette for us is the quality of the solution and its truly bespoke nature. We have complete freedom to define camera positions and angles and shot sequences, for example. This means we can capture the feeling of being right here in our casino for online players who are unable to visit us in person."

James Stern, Director of Business Development & Land-based Sales at Evolution, added: "Evolution recently opened its latest state-of-the-art studio in Tbilisi, so it makes perfect sense for us to install a Dual Play solution here too. Visiting and playing here will be a unique experience and our Dual Play Roulette solution extends customer service while also replicating the Shangri La experience for a wider online audience."

The SL Casino Dual Play table is scheduled to go live in the coming weeks and will be open 24 hours a day, seven days a week.
